# WRAPAROUND FLEXBACK MATERNITY APRON

MODEL: [ AP-WAFBMA ]

The Wraparound Flexback Maternity apron combines the best qualities of our flexback apron with the full protection and back support of our wraparound back relief apron.

The elastic stretch-back shifts weight from your shoulders to your hips while the tri-tab velcro closure system provides convenient, easy-on easy-off wearability. In addition, the 6" wide frontal velcro allows the wearer to adjust the crossties up or down to account for mom's growing belly. The Wrap Around Flexback eliminates excess overlapping lead and is up to **15% lighter than traditional wrap styles.**

For sizing and color options, please see our sizing and fabric color documents or view them online at [protechmed.com](http://protechmed.com).

\*CE applies to Lead and Prolite IEC in 0.25, 0.35, and 0.50mm. Prolite IEC is limited to 130kVp diagnostic range.
